The screenshot displays a document management application interface. At the top, there is a menu bar with options like 'File', 'Edit', 'View', 'Tools', 'Window', and 'Help'. Below the menu is a toolbar with various icons for document operations. The main window is divided into several panes. On the left, there is a 'Documents' pane showing a list of documents with columns for 'Date', 'Time', 'Size', and 'Status'. The central pane shows a document titled 'Live Tissue Connect - Change' with a 'Save & Close' button. On the right, there is a 'Document Properties' dialog box with tabs for 'General', 'Security', 'Permissions', and 'Advanced'. The 'General' tab is active, showing fields for 'Document Name', 'Document ID', 'Document Type', 'Document Status', 'Document Date', 'Document Time', 'Document Size', 'Document Author', 'Document Created By', 'Document Created Date', 'Document Modified Date', 'Document Last Modified Date', 'Document Check Out Status', and 'Document Check Out Date'. The 'Document Content' pane on the right shows the content of the selected document, which appears to be a text document with some formatting. The bottom of the application shows a status bar with information about the current document and the application's version.
